END-OF-YEAR REPORTS AND EXTRACTS

At the end of the year, the system generates end-of-year reports and extracts. These reports and extracts provide a comprehensive overview of student performance and special circumstances. The reports include data on student scores, progress, and special circumstances. The extracts provide a detailed list of students who are assigned special circumstances, including their names, IDs, and the specific circumstances they are assigned. This information is used to generate reports and extracts for the end of the year.
